Richard is President and CEO of Freeport-McMoRan Copper & Gold, Inc. He also serves as Co-Chairman of the Board of McMoRan Exploration Co.

Last year his combined salary and bonuses came to over \$5 million.

In addition to the devastation his company is causing in West Papua, they also plan on destroying fishing in the Gulf of Mexico by building open-loop Liquid Natural Gas (LNG) terminals offshore.

Some Questions for Richie Rich:

Why are you using mining practices in West Papua that are illegal in the USA?

Why do you think you have the right to go half way around the world and destroy the homeland and environment of other human beings?

If you say the mine helps West Papuans, why do you pay for thousands of Indonesian military personnel to guard your mine and kill local people who are opposed to it?

Why do you think destroying the living culture and way of life of West Papuans and turning them into workers and poor people is good for them? How do you think they survived for millennia without your company providing "jobs," Mr. Savior?

What do you think a West Papuan would do if they met you?
